

RSC 1000™ Remote Site Controller Bundle

RSC 1000 Site Controller Bundle, Intelligent Control and Monitoring System for remote facilities with One or Two Air Conditioning Units. The RSC 1000 has a color touch display for status and programming, 10/100 Mb Ethernet for remote communications, thirteen specific digital outputs for controlling up to two HVAC systems, four analog outputs for controlling variable speed fans & dampers and eight digital outputs for alarm contacts.

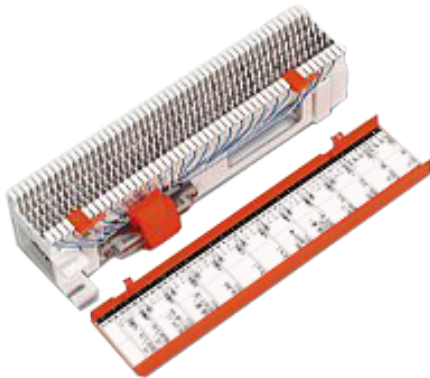

The RSC 1000 also has 10 analog and 10 digital inputs for monitoring and management of the remote site and supports Modbus RTU for interfacing with smart equipment such as power meters and generators. Includes pn#150749 Hum/Temp sensor, pn#300969 66 block, pn#180190 Bridge clips, and pn#300136 Smoke detector. A Built-in 48VDC to 24VDC power supply provides power to the smoke detector and optional hydrogen sensor.

Order Part Number: 151042 (AT&T Item Number: BLD.10568)

The RSC 1000 Remote Site Controller Bundle Includes:

PN#180190
Bridge Clips Bag of 100pcs

PN#300969
66 Block w/prewired 25pr Amphenol, base, and orange cover

PN#150982-1
RSC 1000 Site Controller, Intelligent Control and Monitoring System for remote facilities with One or Two Air Conditioning Units.

PN#150749
Zone temperature sensor (thermistor)/Humidity (3%/4-20mA) Wall Mount

PN#300136
Smoke Detector - A low profile, self-diagnostic, four-wire photoelectric smoke detector with a built-in sounder. 12/24VDC
